

## Directions for changing the wiki template look.

The directions are not that long, I just included pictures of the screen to help in the process.

**Step One:** Click on *“Manage Space”* Tab on the left part of your screen. (See green arrow below.)

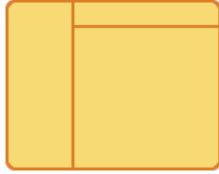

**Step Two:** Click on the *“Look and Feel”* Tab.

**Step Three:** Change the Color codes for Background, text and color. (Use the codes in the screen shot below .Click **SAVE** when done.)

## Theme

Themes let you change the overall look of your wikispace to meet your needs. You can choose from several pre-made themes, or build and apply your own.

Your current theme is **Original**. [Change or make a new theme](#)

## Colors

When using a pre-made theme, you may also choose custom colors for the space background, menus and highlights, text, and links. These colors apply to the area that wraps the main page content. To change colors, pick a color from the color wheel, or enter a six-letter HTML color (000000 is black, FFFFFFFF is white).

**Background Color #**   [pick color](#)

**Menu Color #** This theme does not support changing the highlight color

**Text Color #**   [pick color](#)

**Link Color #**   [pick color](#)

**Step Four:** Insert a new Logo. (Scroll down the same page that Step Three is on.)

Use your Browse tab to select the picture from where you have saved the picture you wish to use. The lion picture can be downloaded from the school web page, the CFF wiki or this Word Document. *Click Save.*

## Wiki Stylesheet

Your wiki stylesheet controls the presentation of your page content, the portion of the wiki page you can edit. You may change most aspects of how your pages look using CSS. This feature requires knowledge of CSS stylesheets.

[Edit your wiki stylesheet](#)

## Logo

In most themes, your logo is shown in the top left corner. You may upload a new logo in GIF, JPEG, or PNG format. The logo must be 150x150 pixels or smaller. Click 'Browse' below to locate the image on your computer that you'd like to upload, and then click 'Save'.

**Current Logo** 

**New Image File**   

Below are the color codes and image for the logo.

### **Wiki Logo Picture.**

It may be easier to go to the District Homepage or the CFF wiki and right click on the photo. Choose "Save As" and save the picture that way.

### **Wiki Color Code**

The code for the font color is "fb8004"

The code for the background color is "990000"
